About KLC Kft

"Established in 2010 and supported by over three decades of international trade expertise, KILC Kft. is a premier trading firm. Our core mission is to deliver superior-quality construction materials throughout Central Europe.

Our Strengths & Capabilities:

Strategic Supplier: Since 2018, we have served as a pivotal supply partner for major Far Eastern investment projects, with a strategic focus on the Hungarian market.

Regulatory Expertise: We possess comprehensive knowledge in harmonizing European and Asian manufacturing standards to ensure rigorous EU compliance.

Trusted Partnerships: We are a proud, authorized partner of industry leaders, including Alternativa d.o.o. Sarajevo and KG Steel.

Tailored Solutions: We offer extensive customization, providing all profiles in the complete RAL color spectrum, precisely cut to exact client specifications."

ELEGANT 20/140/1100

TRAPEZOIDAL SHEETS

Roof & Facade (incl. arched roofs)

Coverage width 1,100 mm, rib height 20 mm.
Flexible for concrete, steel or wood substructures,
also suitable for arched roofs. Fixed with special
screws and neoprene washers.

Profile (H/O/P)	20/140/1100
Rib height	20 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1100 mm
Available length	1 m – 9 m
Min. roof slope	8°
Steel grade	S280, S320 DX51, DX52

MASTER

TRAPEZOIDALSHEETS

Roof & Facade (all substructure types)

Durability under high loads. Standard
reinforcements in the lower part improve
cosmetic effect and structural strength.
Suitable for all substructure types —
concrete, steel or wood.

Profile (H/O/P)	40/200/1000
Rib height	37 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1000 mm
Available length	3 m – 10 m
Min. roof slope	6°
Steel grade	S280, S320 DX51, DX52

STRONG 80/300/900

TRAPEZOIDAL SHEETS

Roof & Structural (concrete, steel, wood)

Extremely high load-bearing capacity with reinforcements in the lower zone. Manufactured from painted galvanized steel; also available as plain galvanized. Quick, easy and safe installation.

Profile (H/O/P)	80/300/900
Rib height	80 mm
Thickness	0.5 - 1.5mm
Net width	900 mm
Available length	2 m – 13.6 m
Min. roof slope	5°
Steel grade	S280, S320 DX51, DX52

ATLAS 152/288/864

TRAPEZOIDALSHEETS

Industrial roof, facade, ceiling & sandwich

Economical solution for large-span roofing, facade cladding and ceilings. Used as bottom plate in sandwich construction. Can be mounted directly on concrete without a steel substructure.

Profile (H/O/P)	152/288/864
Rib height	152 mm
Thickness	0.75 / 0.88 / 1.0 / 1.25 / 1.5 mm
Net width	1000 mm
Available length	3 m – 18 m
Min. roof slope	2°
Steel grade	S280, S320, S350

ZENIT 8/115

TRAPEZOIDAL SHEETS

Roof, Facade & Suspended ceilings

New-generation micro-rib profile with 8 mm rib height and 1,150 mm coverage width. Economical solution for roofing, cladding facades and suspended ceilings. Excellent endurance under high loads.

Profile (H/O/P)	8/115
Rib height	8 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7
Net width	1150 mm
Available length	1 m – 7 m
Min. roof slope	-
Steel grade	S280, DX51, DX52

UNIVERZAL 30/210/1050

TRAPEZOIDAL SHEETS

Roof & Facade — versatile applications

Large profiled sheet with 1,050 mm coverage width and 30 mm rib height. Extremely high load-bearing capacity — giving architects and designers great freedom in design.

Profile (H/O/P)	30/210/1050
Rib height	28 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1050 mm
Available length	1 m – 9 m
Min. roof slope	6°
Steel grade	S280, S320 DX51, DX52

SINOVAL 38/143/1000

SINUSOIDAL SHEETS

Facade & Roof (commercial, industrial)

Primarily a facade profile for commercial, industrial, sports and administrative facilities. Sandwich facades with sinusoidal finish are aesthetically attractive on large surfaces.

Profile (H/O/P)	38/143/1000
Rib height	38 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1000 mm
Available length	2 m – 9 m
Min. roof slope	6°
Steel grade	S280, DX51, DX52

ESTETIK 20/77/1000

SINUSOIDAL SHEETS

Roof & Facade — versatile applications

Large profiled sheet with 1,000 mm coverage width and 20 mm rib height. Extremely high load-bearing capacity — giving architects and designers great freedom in design.

Profile (H/O/P)	20/77/1000
Rib height	20 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1000 mm
Available length	1.5 m – 9 m
Min. roof slope	8°
Steel grade	S280, DX51, DX52

ELITE 28/183/1100

TILE-SHAPED SHEET

Ceiling cladding & interior decoration

Sheet metal in the form of tile ELITE is wavy corrugated sheet metal, which is widely present in the market as the best choice to cover all types of buildings.

Profile (H/O/P)	28/183/1100
Rib height	23 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1100 mm
Available length	0.45 m – 7 m
Min. roof slope	8°
Steel grade	S280, DX51, DX52

TRADICIONAL 38/143/1000

TILE-SHAPED SHEET

Ceiling & internal cladding

Sheet metal in the form of tile TRADICIONAL is a roofing cover that has found its place in the market, primarily due to the high capacity of this profile.

Profile (H/O/P)	38/143/1000
Rib height	38 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1000 mm
Available length	2 m – 7 m
Min. roof slope	6°
Steel grade	S280, DX51, DX52

EXCLUSIVE 30/185/475

SELF-FITTING SHEETS

Roof & Façade – No visible screws

Allows complete roof and facade installation with NO visible screws — a very common investor requirement. Elegant longitudinal reinforcements give a striking appearance. Installs as single layer, two layers, or combined with MASTER or STRONG.

Profile (H/O/P)	30/185/475
Rib height	30 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	475 mm
Available length	0.5m – 13.6 m
Min. roof slope	6°
Steel grade	S280, DX51, DX52

Variant 1: with reinforcements

Variant 2: without reinforcement

CASSETTE SYSTEM

PROFILES SHEETS

Ceiling & internal cladding

Facade cassettes mounted on steel/wood substructure with insulation — generally ventilated construction. Ceiling cassettes produced from galvanized or powder-coated sheets in standard dimensions per specification.

Profile (H/O/P)	Open / Closed
Rib height	Varies mm
Thickness	0.6 / 0.7 / 0.8 / 1.0 mm
Net width	Custom per spec mm
Available length	Custom
Min. roof slope	--
Steel grade	S280, S320, DX51, DX52

STROPING 2.5/65/250

CEILING SHEETS

Ceiling cladding & interior decoration

Profiled ceiling sheet for interior cladding and decorative applications. Coverage width 250 mm, rib height 2.5 mm for an almost-flat appearance. Creates clean linear ceiling finishes.

Profile (H/O/P)	2.5/65/250
Rib height	2.5 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	250 mm
Available length	0.5 m – 5 m
Min. roof slope	--
Steel grade	S280, DX51, DX52

Joint detail:

ECONOMIC 3.5/99/1245

CEILING SHEETS

Ceiling & internal cladding

This profile is an economical solution for roofing, flooring, slatted walls, fences, etc. Economic profiled sheet has a shallow wave of 3mm. This profile produced in the required thickness and could be used as a façade sheet with horizontal or vertical installation.

Profile (H/O/P)	3.5/99/1245
Rib height	3.5 mm
Thickness	0.45 / 0.5 / 0.6 / 0.7 mm
Net width	1188 mm
Available length	0.5 m – 4 m
Min. roof slope	--
Steel grade	S280, DX51, DX52

The advantages of profiled sheets in relation to other roofing materials are:

- The wide range of profiles and colors, allowing the customer to design the roof they like
- Quick and easy installation, thanks to the table length according to customer request
- Low weight of the roof, which saves on the substructure
- High material strength and 100% water resistance
- Long-term durability of the material in all climatic conditions
- Flexibility of the cover that allows curved lines on the roof, roller elements, etc.
- All profiled sheets are designed to fully absorb external sounds
- Possibility of delivery of all profiled sheets with anti-condensation membrane underside
- Short delivery time
- Ability to order all necessary supporting elements in one place
- All supporting elements in the color of the roof

Material	Galvanized and plastic coated steel sheet
Fire reaction	A1
External fire performance	Broof(t1) except Zenit and Stroping
Anti condensation	Yes (except Atlas, Exclusive Stroping)

Standard RAL Colors

RAL 9006 White Aluminium

RAL 9007 Grey Aluminium
